Comments

June 21st (1st Treatment)

Tight shins, ankles and calves. Has had a sore Achilles heal for 20 years. Wants to be able to jog again.

June 23rd (2nd Treatment)

Feels a bit 'looser' after two treatments.

June 27th (3rd Treatment)

Ankles are looser, right arch pain is feeling 'different'.

June 30th (4th Treatment)

Both feet are feeling 'looser'.

¹ Targeted therapy – treatments refer to current being applied to a specific area where pain or other condition exists
